Director Dzbanko,

In response to the Project Investment Justification (PIJ) for the "Application Security" project, the Arizona Department of Administration (ADOA) Strategic Enterprise Technology (ASET) of that will improve and strengthen cyber security by scrutinizing software code to identify and address security threats.

The PIJ implies funding is available from the Base Budget in the amount of \$1,741,512.52 for the total estimated five-year life cycle cost for the project, which is shown below.

All Figures in Thousands (\$000)				
Cost Description	FY2023	FY2024	FY2025	FY2026
Development Costs	1741.5	0.0	0.0	0
Operational Costs	0.0	1741.5	1741.5	1741
Total Project Costs	1741.5	1741.5	1741.5	1741

The PIJ is scheduled to be reviewed by ITAC on May 17, 2023 meeting. Should the ITAC approve the project, you may then proceed to secure additional approvals as required from the Jo Planning and Budgeting, and the State Procurement Office.

As always, let us know if you have any questions.

Regards,

Irene Robayo
