## CIRCUIT DISCONNECT FORM

Upon completion of the recent **AZNet II** project at your site, the following circuits no longer terminate to **AZNet II**-managed devices and may be disconnected per the agency's request.

Circuit documentation is attached.

Should the agency elect to leave these circuits in service after the project has concluded, the agency will continue to assume all related carrier charges.

Please select one of the following options:

Agency authorizes their **AZNet II** Project Manager to disconnect circuits herein at the time of the project's completion. *This form serves as the official disconnect notification, requiring no further action by the agency.*

Agency elects to maintain services on the circuits herein, assuming all financial responsibility beginning on the date project completes. *If this option is selected, it is the onus of the agency to initiate a Remedy ticket to disconnect circuit(s).*
