

Information Technology Authorization Committee

Project Review

August 27, 2014

Action Item

Agency: Department of Child Safety (DCS)
Project Name: DCS FY15 Laptop Replacement
Project Number: CH15003
ASET Oversight Manager: Chuck Revenew

The Department of Child Safety (DCS) requests PIJ approval to replace end user equipment desktop PCs with HP Elite model 850 laptops. Laptops will allow for field staff to be connected to the CHILDS case management system while in the field. Creating a more mobile office will immediately increase the productivity of staff in the field translating to more timely case management decisions (Child Safety Risk Assessments) and data, referrals for services to children and families, case notes for contracted providers and court hearings.

Laptop purchase count = 1,700 with accessories

All deployed laptops will have BitLocker for data encryption at rest and Cisco Meraki to allow for remote wipes of the laptops in the event of loss or being stolen.

Motion Options:

ITAC Approval:

ITAC Conditional Approval:

The Arizona Strategic Enterprise Technology Office recommends ITAC approval of the PIJ with the following Conditions:

1. DCS will assure data encryption, and remote management and wipe software is installed and functional on each deployed laptop to assure data security is constantly maintained on each laptop.

ITAC Disapproval:
